A very special man, fortunately, my father and mentor. He was a devoted family man, where he went we went. The Air Force liked to send him to places that were 1 year assignments and so he was supposed to go alone for 1 year. Dad thought differently and would take the family anyway, at much cost to the family because Uncle Sam was not paying for it. Often we would be somewhere without furniture, but we were together. He and mother made sure we had what we needed. He was always the handyman, remodeling the home from the shingles down to the "yet undug" basement. I believe we wore out many a shovels. That huge monolith of a cement stair-step on the front of the lake house was ceremoniously buried in a hole right in front of the basement-to-be. He instilled in us a can do attitude, so go build it. Definitely led by example. Always the gracious host and loved family get togethers. He was a gift from God for sure. He wore out his earthly body but is now enjoying his eternal body. Be seeing you dad. but not too soon.

Reva, Sharon and I extend our deepest sympathies to you and your family. Our prayers go out to you. I, personally, felt both of you were so gracious to us. I enjoyed stopping by your home in King and chatting with Layner a number of times. I was always thankful for the use of the trailer-- always something to haul away from our home! Thanks for all the great memories. May our Lord bless and comfort you and your family. Pastor Chuck and Sharon Tews

A great dad. Always there for you and threw it all into whatever. Deer hunting with 4 boys in the woods with live rounds!, first pontoon made out of 55 gallon oil barrels that later became a swimming raft and layer the first high dive on the chain for many a fun summer days, the notorious digging a basement under the house with shovels and a wheelbarrow, and of course the obligatory high school graduation present of a monogrammed suitcase. Thanks for making me who I am! He blazed his own trail!

Will always remember Uncle Layner digging out & building a basement under the Taylor Lake cottage (helped by the inexpensive labor his sons provided - LOL). Plus he built the raft that survived on the Chain for 30 years. Truly a talented, fun man.

A special man, rip. He took our family on many adventures, overseas, across, up, and down the US, and during his retirement trips to Az, Tx, and Cal. I'm proud to have called him dad, he will be missed. However, I won't miss raking muck out of Taylor lake trying to reverse decades of accumulation so we could have our own private sandy beach, but I admire his ambition. There is nothing he wouldn't attempt, great spirit, great man, great father.
